black-and-white laser printer

The printer that
works harder,
works smarter,
and always **delivers**

Phaser® 4510 Laser Printer

A true office all-star.

The Xerox Phaser 4510 laser printer will exceed your demanding expectations. With unbeatable reliability, advanced intelligence features, and exceptional value, it's our most productive letter-size printer.

Total reliability, complete peace of mind

The Phaser 4510 is a workhorse office printer with rock-solid reliability and worry-free printing.

- 200,000-page duty cycle supports the heaviest office print volumes.
- Engineered to keep performing, with fewer moving parts to wear out and less consumables to replace.
- Reliable Xerox paper pick-and-feed operation virtually eliminates paper jams and keeps print jobs flowing smoothly.
- Proven performance backed by an industry-leading 1-year on-site warranty and the unmatched Xerox Total Satisfaction Guarantee.
- PhaserSMART® automated troubleshooting saves you time by providing 24/7 access to the Xerox Knowledge Base system.

Flexible and reliable paper handling

- 1 The 150-sheet Tray 1 (standard) handles up to 80 lb. (216 gsm) cover stock.
- 2 The 550-sheet Tray 2 (standard) allows you to add a full ream of paper. Plus, the auto size-sensing technology automatically determines the size of most media types before printing begins.
- 3 Add one or two additional 550-sheet feeders to boost paper capacity to 1,800 sheets.
- 4 The optional 500-sheet stacker with offset both expands output capacity and separates print jobs for easy distribution.

Connect a Phaser 4510 to your network and take advantage of Xerox CentreWare® software. Access printer and job status, get in-depth accounting information, set up email alerts, and more.

Uncommon intelligence, built right in

With advanced intelligence features, the Phaser 4510 printer works hard to enhance your productivity.

- Print driver installs in 4 mouse-clicks; networked models can be installed and configured over the web.
- Get accurate toner-level readings from the printer's front panel, driver or embedded web page.
- PrintingScout™ tracks print jobs and provides onscreen print-issue alerts and immediate correction suggestions.
- Smart Trays “know” the size and type of paper you've loaded, so your jobs automatically print on the intended media.
- Smart duplexing “knows” when a single-sided page is mixed in with two-sided print jobs and automatically passes through only the printed side, speeding up print time and eliminating unnecessary wear and tear.

A printer that earns its keep

The value-packed Phaser 4510 printer has it all: blazing print speed, outstanding print quality and the power to keep up with your business-critical print load.

- Get more for less. Even the base model has a high-speed 533 MHz processor, up to 512 MB memory, and Adobe® PostScript® 3™ language support. Add an optional 40 GB hard drive for additional functionality.
- A printing speed of up to 45 ppm makes short work of long and multiple-set print jobs.
- With a first-page-out time as fast as 8 seconds, the Phaser 4510 printer understands that time is money.
- True 1200 dpi output makes fine details stand out, even on photo grayscale images.
- Choose high-capacity print cartridges for a lower cost per page and reduced printer interventions.
