Print to please

- EA-HG toner technology — with particles engineered to have uniform size and shape — gives your printed images superior detail and clarity. It's the same high-quality toner used in our professional graphic-arts color printers and MFPs.
- True Adobe® PostScript® 3™ print language ensures your jobs are printed accurately every time.
- PANTONE® Color approved solid-color simulations, Xerox color correction technology and simple calibration tools automatically give you the right color or let you fine-tune colors for special applications.

With simple on-screen color manipulation tools, the Phaser 6180 and Phaser 6180MFP make it easy to ensure that the colors you want are the colors you get.
